

# Bioengineering Web Documentation Rubric

Instructor: Z. Maria Oden

Team Name: \_\_\_\_\_

		Cycle 3	Cycle 4	Cycle 5
1.	Summary concisely and clearly ( 3-4 sentences) describes project and includes title and team name and team members names	/10		
2.	Web template instructions followed and template complete(ie: correct template used, logos included, sections filled out appropriately)	/20		
3.	High quality and descriptive text content on web template	/20		
6.	Response to comments/ previous grading and updates to template as appropriate for design project		/50	*
	TOTAL:	/50	/50	

\*team can earn 75% of points from those not earned in cycle 4

Example Project Summary:

## **Diagnostic “Lab in a Backpack”**

**Team SouthFace: Jamie Lai, Junho Lee, Neel Shrikishen, Po T. Wang, Nick Taboada**

*As much of the world lives in rural communities, physicians are called on to visit areas that are reached by traveling on foot. Travel over rough terrain or a lack of resources such as electricity can further inhibit the doctor’s ability to provide even routine examinations in these rural environments. For a physician embarking on such a trip, gathering the appropriate medical equipment they need into an easily transportable pack is a tremendous challenge. The Lab-in-a-Backpack provides an efficient and cost effective way to deliver quality healthcare to remote areas.*
