Answer Key:	1	2	3	4	5
Organization:	Outstanding	Good	Average	Fair	Poor
Assignments:	Outstanding	Good	Average	Fair	Poor
Challenge:	Strongly Agree	Agree	Neutral	Disagree	Strongly Disagree
Workload:	Much Lighter	Somewhat Lighter	Average	Somewhat Heavier	Much Heavier
Reason:	University Requirement	Major Requirement	Major Elective	Free Elective	N/A
Letter Grade:	A	B	C	D	F
Non-Letter Grade:	P	F	S	A free elective	N/A
Overall:	Outstanding	Good	Average	Fair	Poor

Student Response Number: 1

Please provide further explanation of any factors that influenced your response to question 8.

Additional Comments:
There were obviously some issues with the book. Its generally a good book, but an aweful lot of mistakes in it. I also still feel a bit weak on stereographical analysis.

Overall, a great course and great instructor.

I learn lots of materials research skill about x-ray defraction in this course.

Additional Comments:

Student Response Number: 3

Please provide further explanation of any factors that influenced your response to question 8.
This course was good because the student gains the understanding of instrumentation that will help in the students use of those instruments

Additional Comments:
I would suggest finding a better textbook with fewer errors

The instructor was extremely helpful and patient, which adds to the enthusiasm in learning things because he is always patient enough to explain
even the silliest of doubts possible.

It was extremely well organised which helped me understand the purpose of the course.

A very good course overall

Additional Comments:
Great course ...Excellent instructor!
