

Instructor Evaluation for MSCI 535 001 (22198) - CRYSTALLOGRAPHY & DIFFRACTION

Term: Spring 2008
 Course(s): MSCI 535 001 (22198) - CRYSTALLOGRAPHY & DIFFRACTION
 Cross-list(s): PHYS 535 001 (22746)
 Enrolled: 17
 Instructor(s): Loos, Peter J.

Total Comments: 9

The instructor is extremely well prepared for class. The lectures were interesting and well-organized. Sometimes the lectures were a little too long however in terms of depth (deriving long equations, etc.).

(05/05/2008 04:05 P.M.)

The instructor is good at organizing the course content and well distribute all aspects in this field (this course actually may need more time but the instructor managed to complete the whole content). The assignment, quiz and test are efficient and helpful, they are not just repeating what he said in class, but all these components add into the knowledge and form the whole system.

(05/16/2008 12:05 A.M.)

the material covered was extensive. the instructor was thorough and fostered independent thinking

(05/20/2008 10:05 A.M.)

Dr. Loos does a good job presenting the material and giving assignments. The course itself is pretty dry, but I don't think that's the instructor's fault.

(04/15/2008 10:04 A.M.)

I was impressed with the amount of material that we were able to cover. I think that the last section of the class, on electron diffraction, might have been organized better.

(05/06/2008 01:05 P.M.)

The instructor gives well-prepared and interesting lectures. And students could discuss with the lecture notes anytime during the lecture. Moreover, the homeworks are purposeful, they are closely associated with the lectures.

(04/29/2008 12:04 P.M.)

The assignments cover a wide area of knowledge and strengthen my understanding for the class. I can always get a patient response from the instructor about the problems on the class.

(05/10/2008 12:05 A.M.)

A wonderful professor, great mastery of subject, as well as approachable and considerate. Treatment of subject was good, i.e. considered the diverse background of students taking the course. Great to finally see a prof who uses powerpoint just as a tool and not as the primary course material.

(05/09/2008 10:05 A.M.)

From this class I can get to know the knowledge of XRD but also the attitude of studying. When I have a difficulty to solve some problems, asking something to Dr. Loos was much helpful and I was admired because of his kind explanation and help. I would like to recommend XRD class to students in this field.
